

200G QSFP56

Passive Direct Attach Cable

Volex's QSFP56 Passive Copper Direct Attach Cable features 4 transmitting and 4 receiving 50Gbps PAM 4 channels. The cable assembly meets 50G and 200G Ethernet and InfiniBand High Data Rate (HDR) specifications. The cable assemblies meet 50Gbps Ethernet (IEEE 802.3cd) standard with substantial signal integrity margin providing high performance and bandwidth interconnect solutions for high density applications.

As next gen data centers deploy faster speed in a tighter space, they need high performance cables that reduce power consumption, provide reliable operation and are low cost, by partnering with Volex on QSFP56 and other high speed cables, you can benefit from Volex's global manufacturing footprint and technical expertise to help you future proof your data center and fulfill infrastructure development goals.

Near zero power consumption and no heat generated

Complete cable assembly uniquely terminated at the factory to provide the most reliable operation

100% tested for signal integrity with serial number traceability
